

about this resource

This resource was designed to provide clear, colorful multiples visuals for your students. There are several options in this file. All posters can be printed on legal-sized paper (8.5" x 14") for a large, eye-catching display. The posters are also available in the traditional letter-sized paper, in case you need to save space in your classroom.

Posters come in colorful shades featuring the multiples of 2-12:

They can be printed on cardstock and laminated for longevity. Please see the next page for more options available in this resource.

All posters are also available in blackline (both letter and legal-sized). Blackline posters features two multiple visuals per page, as well as one multiple poster per page. You can choose your favorite colored paper combinations and print to save ink (and match your classroom theme/color scheme):
